Forecast For Tayside, Central & Fife
Issued by Met Office Aberdeen
at 0400 on Friday 29 Jan 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Mostly cloudy with outbreaks of rain, sleet and snow.

Today:
Mostly cloudy with outbreaks of sleet, snow and coastal rain, these heaviest and most persistent in east this morning. During the afternoon the precipitation becomes lighter and patchier with some brighter spells developing across northern Perthshire. Maximum temperature 5 deg C (41 deg F).

Tonight:
Patchy rain, sleet and snow soon clearing this evening with long clear spells developing overnight with just a few coastal wintry showers. Widespread overnight frost with ice on untreated surfaces. Minimum temperature -5 deg C (23 deg F).

Saturday:
Largely dry and cold with long spells of sunshine, especially across Perthshire and western Stirlingshire. A few wintry showers are likely in coastal parts. Frost persisting all day in places. Maximum temperature 4 deg C (39 deg F).

Outlook for Sunday to Tuesday:
Mainly dry with clear or sunny spells through Sunday and Monday with severe overnight frosts. Tuesday sees rain and significant hill snow spreading northeast along with strengthening southeasterly winds.
